## Safe Harbor Statement

The matters discussed in this Quarterly Report contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, which are not statements of historical fact, contain estimates, assumptions, projections and/or expectations regarding future events, that may or may not occur. Words such as “aim,” “anticipate,” “assume,” “believe,” “continue,” “could,” “estimate,” “expect,” “foresee,” “guidance,” “intend,” “may,” “might,” “objective,” “plan,” “potential,” “project,” “seek,” “shall,” “should,” “target,” “will,” “would,” or variations thereof, and other expressions that refer to future events and trends, identify forward-looking statements. These forward-looking statements, and financial or other business targets, are subject to certain risks and uncertainties, which could cause our actual results to differ materially from the expected results, performance or achievements expressed or implied by such forward-looking statements.

We believe that the most significant risk factors that could affect our financial performance in the near-term include: (i) the impacts to underlying demand for our products and/or foreign currency fluctuations from global economic conditions, political uncertainty, changes in environmental standards and governmental regulations, including as a result of COVID-19; (ii) the availability of raw materials; (iii) the degree to which higher costs can be offset with productivity measures and/or passed on to customers through price increases, without a significant loss of volume; (iv) competitors’ actions, including pricing, expansion in key markets, and product offerings; and (v) the execution and integration of acquisitions, including the acquisition of CB Velocity Holdings, LLC (“Vestcom”).

The more significant risks and uncertainties that may impact us are discussed in more detail under “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2021 Annual Report on Form 10-K filed on February 23, 2022. These risks and uncertainties include, but are not limited to, the following:

- COVID-19
- International Operations – worldwide and local economic and market conditions; changes in political conditions, including those related to the Russian invasion of Ukraine; and fluctuations in foreign currency exchange rates and other risks associated with foreign operations, including in emerging markets
- Our Business – fluctuations in demand affecting sales to customers; fluctuations in the cost and availability of raw materials and energy; changes in our markets due to competitive conditions, technological developments, environmental standards, laws and regulations, and customer preferences; the impact of competitive products and pricing; execution and integration of acquisitions, including our acquisition of Vestcom; selling prices; customer and supplier concentrations or consolidations; financial condition of distributors; outsourced manufacturers; product and service quality; timely development and market acceptance of new products, including sustainable or sustainably-sourced products; investment in development activities and new production facilities; successful implementation of new manufacturing technologies and installation of manufacturing equipment; our ability to generate sustained productivity improvement; our ability to achieve and sustain targeted cost reductions; and collection of receivables from customers
- Income Taxes – fluctuations in tax rates; changes in tax laws and regulations, and uncertainties associated with interpretations of such laws and regulations; retention of tax incentives; outcome of tax audits; and the realization of deferred tax assets
- Information Technology – disruptions in information technology systems or data security breaches, including cyber-attacks or other intrusions to network security; and successful installation of new or upgraded information technology systems
- Human Capital – recruitment and retention of employees; fluctuations in employee benefit costs; and collective labor arrangements
- Our Indebtedness – credit risks; our ability to obtain adequate financing arrangements and maintain access to capital; fluctuations in interest rates; volatility of financial markets; and compliance with our debt covenants
- Ownership of Our Stock – potential significant variability of our stock price and amounts of future dividends and share repurchases
- Legal and Regulatory Matters – protection and infringement of intellectual property; impact of legal and regulatory proceedings, including with respect to environmental, anti-corruption, health and safety, and trade compliance
- Other Financial Matters – fluctuations in pension costs and goodwill impairment

Our forward-looking statements are made only as of the date hereof. We assume no duty to update these forward-looking statements to reflect new, changed or unanticipated events or circumstances, other than as may be required by law.

**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****Note 1. General**

The unaudited Condensed Consolidated Financial Statements and related notes in this Quarterly Report on Form 10-Q are presented as permitted by Article 10 of Regulation S-X and do not contain certain information included in the audited Consolidated Financial Statements and related notes in our 2021 Annual Report on Form 10-K, which should be read in conjunction with this Quarterly Report on Form 10-Q. These unaudited Condensed Consolidated Financial Statements contain all adjustments of a normal and recurring nature necessary for a fair statement of our interim results. Interim results of operations are not necessarily indicative of future results. These unaudited Condensed Consolidated Financial Statements reflect our current estimates and assumptions that affect our reported amounts of assets and liabilities and related disclosures as of the date of the financial statements and our reported amounts of sales and expenses during the reporting periods presented.

**Fiscal Periods**

The three months ended April 2, 2022 and April 3, 2021 each consisted of a thirteen-week period.

**Note 2. Acquisitions**

During January 2022, we completed our acquisitions of TexTrace AG ("TexTrace"), a Switzerland-based technology developer specializing in custom-made woven and knitted radio-frequency identification ("RFID") products that can be sewn onto or inserted into garments, and Rietveld Serigrafie B.V. and Rietveld Screenprinting Serigrafie Baski Matbaa Tekstil İthalat İhracat Sanayi ve Ticaret Limited Sirketi ("Rietveld"), a Netherlands-based provider of external embellishment solutions and application and printing methods for performance brands and team sports in Europe. These acquisitions expand the product portfolio in our Retail Branding and Information Solutions ("RBIS") reportable segment.

The acquisitions of TexTrace and Rietveld are referred to collectively as the "2022 Acquisitions."

The aggregate purchase consideration for the 2022 Acquisitions was approximately \$35 million. We funded the 2022 Acquisitions using cash and commercial paper borrowings. In addition to the cash paid at closing, the sellers in one of these acquisitions are eligible for earn-out payments of up to \$30 million subject to the acquired company achieving certain post-acquisition performance targets. As of the acquisition date, we have included an estimate of the fair value of these earn-out payments in the aggregate purchase consideration.

The 2022 Acquisitions were not material, individually or in the aggregate, to the unaudited Condensed Consolidated Financial Statements.

**Note 3. Goodwill and Other Intangibles Resulting from Business Acquisitions**

The goodwill from the 2022 Acquisitions was not material to the unaudited Condensed Consolidated Financial Statements. Refer to Note 2, "Acquisitions," to the unaudited Condensed Consolidated Financial Statements for more information.

Changes in the net carrying amount of goodwill for the three months ended April 2, 2022 by reportable segment are shown below.

(In millions)		Label and Graphic Materials		Retail Branding and Information Solutions		Industrial and Healthcare Materials		Total
Goodwill as of January 1, 2022	\$	456.4	\$	1,236.0	\$	189.1	\$	1,881.5
Acquisitions <sup>(1)</sup>		—		16.3		—		16.3
Acquisition adjustment <sup>(2)</sup>		—		(.7)		—		(.7)
Translation adjustments		(3.4)		(2.9)		(.8)		(7.1)
Goodwill as of April 2, 2022	\$	453.0	\$	1,248.7	\$	188.3	\$	1,890.0

<sup>(1)</sup>Goodwill acquired related to the 2022 Acquisitions. We expect the recognized goodwill related to the 2022 Acquisitions not to be deductible for income tax purposes.

<sup>(2)</sup>Measurement period adjustment related to the finalization of the purchase price allocation for the acquisition of CB Velocity Holdings, LLC completed in August 2021.

In connection with the 2022 Acquisitions, we acquired approximately \$21 million of identifiable finite-lived intangible assets, which consisted of patented and other developed technology as well as customer relationships.

Amortization expense for all finite-lived intangible assets resulting from business acquisitions was \$20.5 million and \$6.4 million for the three months ended April 2, 2022 and April 3, 2021, respectively.

Estimated future amortization expense related to existing finite-lived intangible assets for the remainder of fiscal year 2022 and for each of the next four fiscal years is shown below. These amounts include the effects of the 2022 Acquisitions and updated amounts from year-end 2021.

	<b>Estimated Amortization Expense</b>
2022 (remainder of year)	\$ 62.2
2023	81.9
2024	80.2
2025	79.3
2026	76.3

#### Note 4. Debt

The estimated fair value of our long-term debt is primarily based on the credit spread above U.S. Treasury securities or euro government bond securities, as applicable, on notes with similar rates, credit ratings and remaining maturities. The fair value of short-term borrowings, which include commercial paper issuances and short-term lines of credit, approximates their carrying value given the short duration of these obligations. The fair value of our total debt was \$3.19 billion at April 2, 2022 and \$3.25 billion at January 1, 2022. Fair values were determined based primarily on Level 2 inputs, which are inputs other than quoted prices in active markets that are either directly or indirectly observable.

Our \$800 million revolving credit facility (the “Revolver”) contains a financial covenant requiring that we maintain a specified ratio of total debt in relation to a certain measure of income. As of both April 2, 2022 and January 1, 2022, we were in compliance with this financial covenant. No balance was outstanding under the Revolver as of April 2, 2022 or January 1, 2022.

#### Note 5. Cost Reduction Actions

##### 2019/2020 Actions

During the three months ended April 2, 2022, we recorded \$0.9 million in restructuring charges related to our 2019/2020 actions. These charges consisted of severance and related costs for the reduction of approximately 20 positions at numerous locations across our company. These actions, which were primarily taken in our RBIS reportable segment, largely related to global headcount and footprint reductions. Accruals for severance and related costs, as well as lease cancellation costs, were not material as of April 2, 2022.

#### Note 6. Financial Instruments

We enter into foreign exchange hedge contracts to reduce our risk from foreign exchange rate fluctuations associated with receivables, payables, loans and firm commitments denominated in certain foreign currencies that arise primarily as a result of our operations outside the U.S. We also enter into futures contracts to hedge certain price fluctuations for a portion of our anticipated domestic purchases of natural gas. The impact of these foreign exchange and commodities hedge activities on the unaudited Condensed Consolidated Financial Statements was not material.

In March 2020, we entered into U.S. dollar to euro cross-currency swap contracts with a total notional amount of \$250 million to have the effect of converting the fixed-rate U.S. dollar-denominated debt to euro-denominated debt, including semiannual interest payments and the payment of principal at maturity. During the term of the contract, which ends on April 30, 2030, we pay fixed-rate interest in euros and receive fixed-rate interest in U.S. dollars. These contracts have been designated as cash flow hedges. The fair value of these contracts was \$(5.0) million and \$(10.3) million as of April 2, 2022 and January 1, 2022, respectively, which was included in “Long-term retirement benefits and other liabilities” in the unaudited Condensed Consolidated Balance Sheets. Refer to Note 10, “Fair Value Measurements,” to the unaudited Condensed Consolidated Financial Statements for more information.

We recorded no ineffectiveness from our cross-currency swap to earnings during the three months ended April 2, 2022 or April 3, 2021.

**Note 7. Taxes Based on Income**

The following table summarizes our income before taxes, provision for income taxes, and effective tax rate:

(Dollars in millions)	Three Months Ended	
	April 2, 2022	April 3, 2021
Income before taxes	\$ 269.7	\$ 268.9
Provision for income taxes	71.5	58.1
Effective tax rate	26.5 %	21.6 %

Our provision for income taxes for the three months ended April 2, 2022 included \$6.6 million of net tax charge related to the tax on global intangible low-taxed income (“GILTI”) of our foreign subsidiaries and the recognition of foreign withholding taxes on current year earnings, partially offset by the benefit from foreign-derived intangible income (“FDII”).

Our provision for income taxes for the three months ended April 3, 2021 included \$7 million of net tax charge related to the tax on GILTI of our foreign subsidiaries and the recognition of foreign withholding taxes on current year earnings, partially offset by the benefit from FDII. Our provision for income taxes for the three months ended April 3, 2021 also reflected \$14.1 million of return-to-provision benefit related to an election made on our amended 2018 U.S. federal tax return.

We have not yet determined whether to make an annual election to exclude foreign income subject to a high effective tax rate from our GILTI inclusions for tax years 2021 and 2022. We continue to evaluate the impact of these elections and currently anticipate that the benefit from making this election on our 2021 or 2022 U.S. federal tax return may be significant.

The amount of income taxes we pay is subject to ongoing audits by taxing jurisdictions around the world. Our estimate of the potential outcome of any uncertain tax issue is subject to our assessment of the relevant risks, facts, and circumstances existing at the time. We believe that we have adequately provided for reasonably foreseeable outcomes related to these matters. However, our future results may include favorable or unfavorable adjustments to our estimated tax liabilities in the period the assessments are made or resolved, which may impact our effective tax rate. The final determination of tax audits and any related legal proceedings could materially differ from the amounts currently reflected in our tax provision for income taxes and the related liabilities. To date, we and our U.S. subsidiaries have completed the Internal Revenue Service’s Compliance Assurance Process Program through 2018. With limited exceptions, we are no longer subject to income tax examinations by tax authorities for years prior to 2010.

It is reasonably possible that, during the next 12 months, we may realize a net decrease in our uncertain tax positions, including interest and penalties, of approximately \$9 million, primarily as a result of closing tax years.

**Note 8. Net Income Per Common Share**

Net income per common share was computed as follows:

(In millions, except per share amounts)	Three Months Ended	
	April 2, 2022	April 3, 2021
(A) Net income	\$ 198.2	\$ 209.5
(B) Weighted average number of common shares outstanding	82.4	83.1
Dilutive shares (additional common shares issuable under stock-based awards)	.6	.8
(C) Weighted average number of common shares outstanding, assuming dilution	83.0	83.9
Net income per common share: (A) ÷ (B)	\$ 2.41	\$ 2.52
Net income per common share, assuming dilution: (A) ÷ (C)	\$ 2.39	\$ 2.50

Certain stock-based compensation awards were not included in the computation of net income per common share, assuming dilution, because they would not have had a dilutive effect. Stock-based compensation awards excluded from the computation were not significant for the three months ended April 2, 2022 or April 3, 2021.

<sup>(1)</sup>We fund a portion of our employee-related expenses using shares of our common stock held in treasury. We reduce capital in excess of par value based on the grant date fair value of vesting awards and record net gains or losses associated with using treasury shares to retained earnings.

Dividends per common share were as follows:

	Three Months Ended	
	April 2, 2022	April 3, 2021
Dividends per common share	\$ .68	\$ .62

In April 2022, subsequent to the end of the first quarter of 2022, our Board authorized the repurchase of shares of our common stock with a fair market value of up to \$750 million, excluding any fees, commissions or other expenses related to such purchases and in addition to the amount outstanding under our previous Board authorization. Board authorizations remain in effect until shares in the amount authorized thereunder have been repurchased.

Assets and liabilities carried at fair value, measured on a recurring basis, as of January 1, 2022 were as follows:

(In millions)	Total	Fair Value Measurements Using		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
<b>Assets</b>

Cross-currency swap	\$ 10.3	\$ —	\$ 10.3	\$ —
Derivative liabilities	3.6	—	3.6	—
Contingent consideration liabilities	7.6	—	—	7.6

Investments include fixed income securities (primarily U.S. government and corporate debt securities) measured at fair value using quoted prices/bids and a money market fund measured at fair value using net asset value. As of April 2, 2022, investments of \$0.4 million and \$32.1 million were included in “Cash and cash equivalents” and “Other current assets,” respectively, in the unaudited Condensed Consolidated Balance Sheets. As of January 1, 2022, investments of \$0.5 million and \$33.4 million were included in “Cash and cash equivalents” and “Other current assets,” respectively, in the unaudited Condensed Consolidated Balance Sheets. Derivatives that are exchange-traded are measured at fair value using quoted market prices and classified within Level 1 of the valuation hierarchy. Derivatives measured based on foreign exchange rate inputs that are readily available in public markets are classified within Level 2 of the valuation hierarchy. Bank drafts (maturities greater than three months) are valued at face value due to their short-term nature and were included in “Other current assets” in the unaudited Condensed Consolidated Balance Sheets.

Contingent consideration liabilities relate to estimated earn-out payments associated with certain acquisitions completed in 2022 and 2021. These payments are based on the respective acquired company achieving agreed upon performance targets and are estimated based on the expected payments related to these targets as of April 2, 2022. We have classified these liabilities as Level 3.

In addition to the investments described above, we also hold venture investments in privately held companies and utilize the measurement alternative for equity investments that do not have readily determinable fair values, measuring these investments at cost less impairment plus or minus observable price changes in orderly transactions. The total carrying values of our venture investments were \$55.8 million and \$52.0 million as of April 2, 2022 and January 1, 2022, respectively, and included in “Other assets” in the unaudited Condensed Consolidated Balance Sheets.

#### Note 11. Commitments and Contingencies

##### Legal Proceedings

We are involved in various lawsuits, claims, inquiries, and other regulatory and compliance matters, most of which are routine to the nature of our business. When it is probable that a loss will be incurred and where a range of the loss can be reasonably estimated, the best estimate within the range is accrued. When the best estimate within the range cannot be determined, the low end of the range is accrued. The ultimate resolution of these claims could affect future results of operations should our exposure be materially different from our estimates or should we incur liabilities that were not previously accrued. Potential insurance reimbursements are not offset against potential liabilities.

We are currently party to a litigation in which ADASA Inc. (“Adasa”), an unrelated third party, alleged that certain of our RFID products infringed on its patent. We recorded a contingent liability related to this matter in the second quarter of 2021 in the amount of \$26.6 million based on a jury verdict issued on May 14, 2021.

During the third quarter of 2021, the first instance judgment associated with the jury verdict was issued. This resulted in additional potential liability of \$35.8 million for, among other things, royalties on a higher number of tags and royalties on tags sold after March 31, 2021. We did not increase the contingent liability we recorded for this additional potential liability. With continued evaluation of the matter and our defenses, as well as consultation with our outside counsel, we continue to believe that Adasa’s patent is invalid and that, even if valid, we have not infringed it, and that the royalty rate used as the basis for the jury’s determination is unreasonable under prevailing industry standards, as well as that any liability related to this matter would be substantially lower than that which is reflected in either the jury verdict or the first instance judgment. On October 22, 2021, we appealed the judgment to the United States Court of Appeals for the Federal Circuit and continue to believe meritorious defenses exist to significantly reduce the liability we currently have recorded. As our appeal is still pending, we maintained our current contingent liability of \$26.6 million for this matter as a reasonable

estimate within the range of probable outcomes. We have largely completed our migration to alternative encoding methods used in our other RFID tags.

Because of the uncertainties associated with claims resolution and litigation, future expenses to resolve these matters could be higher than the liabilities we have accrued; however, we are unable to reasonably estimate a range of potential expenses. If information were to become available that allowed us to reasonably estimate a range of potential expenses in an amount higher or lower than what we have accrued and determined such to be probable, we would adjust our accrued liabilities accordingly. Additional lawsuits, claims, inquiries, and other regulatory and compliance matters could arise in the future. The range of expenses for resolving any future matters would be assessed as they arise; until then, a range of potential expenses for such resolution cannot be determined. Based upon current information, we believe that the impact of the resolution of these matters would not be, individually or in the aggregate, material to our financial position, results of operations or cash flows.

#### ***Environmental Expenditures***

Environmental expenditures are generally expensed. When it is probable that a loss will be incurred and where a range of the loss can be reasonably estimated, the best estimate within the range is accrued. When the best estimate within the range cannot be determined, the low end of the range is accrued. The ultimate resolution of these matters could affect future results of operations should our exposure be materially different from our estimates or should we incur liabilities that were not previously accrued. Potential insurance reimbursements are not offset against potential liabilities. We review our estimates of the costs of complying with environmental laws related to remediation and cleanup of various sites, including sites in which governmental agencies have designated us as a potentially responsible party (“PRP”). However, environmental expenditures for newly acquired assets and those that extend or improve the economic useful life of existing assets are capitalized and amortized over the shorter of the estimated useful life of the acquired asset or the remaining life of the existing asset.

As of April 2, 2022, we have been designated by the U.S. Environmental Protection Agency (“EPA”) and/or other responsible state agencies as a PRP at twelve waste disposal or waste recycling sites that are the subject of separate investigations or proceedings concerning alleged soil and/or groundwater contamination. No settlement of our liability related to any of these sites has been agreed upon. We are participating with other PRPs at these sites and anticipate that our share of remediation costs will be determined pursuant to agreements that we negotiate with the EPA or other governmental authorities.

These estimates could change as a result of changes in planned remedial actions, remediation technologies, site conditions, the estimated time to complete remediation, environmental laws and regulations, and other factors. Because of the uncertainties associated with environmental assessment and remediation activities, our future expenses to remediate these sites could be higher than the liabilities we have accrued; however, we are unable to reasonably estimate a range of potential expenses. If information were to become available that allowed us to reasonably estimate a range of potential expenses in an amount higher or lower than what we have accrued, we would adjust our environmental liabilities accordingly. In addition, we may be identified as a PRP at additional sites in the future. The range of expenses for remediation of any future-identified sites would be addressed as they arise; until then, a range of expenses for such remediation cannot be determined.

The activity related to our environmental liabilities for the three months ended April 2, 2022 is shown below.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Management's Discussion and Analysis of Financial Condition and Results of Operations, or MD&A, provides management's views on our financial condition and results of operations and should be read in conjunction with the accompanying unaudited Condensed Consolidated Financial Statements and related notes.

**NON-GAAP FINANCIAL MEASURES**

We report our financial results in conformity with accounting principles generally accepted in the United States of America, or GAAP, and also communicate with investors using certain non-GAAP financial measures. These non-GAAP financial measures are not in accordance with, nor are they a substitute for or superior to, the comparable GAAP financial measures. These non-GAAP financial measures are intended to supplement the presentation of our financial results that are prepared in accordance with GAAP. Based on feedback from investors and financial analysts, we believe that the supplemental non-GAAP financial measures we provide are useful to their assessments of our performance and operating trends, as well as liquidity.

Our non-GAAP financial measures exclude the impact of certain events, activities or strategic decisions. The accounting effects of these events, activities or decisions, which are included in the GAAP financial measures, may make it difficult to assess our underlying performance in a single period. By excluding the accounting effects, positive or negative, of certain items (e.g., restructuring charges, outcomes of certain legal proceedings, certain effects of strategic transactions and related costs, losses from debt extinguishments, gains or losses from curtailment or settlement of pension obligations, gains or losses on sales of certain assets, gains or losses on venture investments and other items), we believe that we are providing meaningful supplemental information that facilitates an understanding of our core operating results and liquidity measures. While some of the items we exclude from GAAP financial measures recur, they tend to be disparate in amount, frequency, or timing.

We use these non-GAAP financial measures internally to evaluate trends in our underlying performance, as well as to facilitate comparison to the results of competitors for quarters and year-to-date periods, as applicable.

We use the non-GAAP financial measures described below in this MD&A.

- *Sales change ex. currency* refers to the increase or decrease in net sales, excluding the estimated impact of foreign currency translation and the reclassification of sales between segments, and, where applicable, an extra week in our fiscal year and the calendar shift resulting from the extra week in the prior fiscal year and currency adjustment for transitional reporting of highly inflationary economies. The estimated impact of foreign currency translation is calculated on a constant currency basis, with prior period results translated at current period average exchange rates to exclude the effect of currency fluctuations.
- *Organic sales change* refers to sales change ex. currency, excluding the estimated impact of acquisitions and product line divestitures.

We believe that sales change ex. currency and organic sales change assist investors in evaluating the sales change from the ongoing activities of our businesses and enhance their ability to evaluate our results from period to period.

- *Free cash flow* refers to cash flow provided by operating activities, less payments for property, plant and equipment, software and other deferred charges, plus proceeds from sales of property, plant and equipment, plus (minus) net proceeds from insurance and sales (purchases) of investments. Free cash flow is also adjusted for, where applicable, certain acquisition-related transaction costs. We believe that free cash flow assists investors by showing the amount of cash we have available for debt reductions, dividends, share repurchases and acquisitions.
- *Operational working capital as a percentage of annualized current quarter net sales* refers to trade accounts receivable and inventories, net of accounts payable, and excludes cash and cash equivalents, short-term borrowings, deferred taxes, other current assets and other current liabilities, as well as net current assets or liabilities held-for-sale divided by annualized current quarter net sales. We believe that operational working capital as a percentage of annualized current quarter net sales assists investors in assessing our working capital requirements because it excludes the impact of fluctuations attributable to our financing and other activities (which affect cash and cash equivalents, deferred taxes, other current assets, and other current liabilities) that tend to be disparate in amount, frequency, or timing, and may increase the volatility of working capital as a percentage of sales from period to period. The items excluded from this measure are not significantly influenced by our day-to-day activities managed at the operating level and do not necessarily reflect the underlying trends in our operations.

## OVERVIEW AND OUTLOOK

### Net Sales

The factors impacting the reported sales change, as compared to the prior-year period, are shown in the table below.

	<b>Three Months Ended April 2, 2022</b>
Reported sales change	15 %
Foreign currency translation	3
Sales change ex. currency <sup>(1)</sup>	18
Acquisitions	(5)
Organic sales change <sup>(1)</sup>	13 %

<sup>(1)</sup>Totals may not sum due to rounding

In the three months ended April 2, 2022, net sales increased on an organic basis compared to the same period in the prior year due to pricing actions and higher volume/mix.

### Net Income

Net income decreased from approximately \$210 million in the first three months of 2021 to approximately \$198 million in the first three months of 2022. Major factors affecting the change in net income included the following:

- Higher tax provision
- Unfavorable currency translation
- Growth investments

Offsetting factors:

- Higher organic volume/mix
- Higher income from business acquisitions, net of associated amortization of other intangibles

### Acquisitions

During January 2022, we completed our acquisitions of TexTrace AG ("TexTrace"), a Switzerland-based technology developer specializing in custom-made woven and knitted radio-frequency identification ("RFID") products that can be sewn onto or inserted into garments, and Rietveld, a Netherlands-based provider of external embellishment solutions and application and printing methods for performance brands and team sports in Europe. These acquisitions expand the product portfolio in our Retail Branding and Information Solutions ("RBIS") reportable segment.

The acquisitions of TexTrace and Rietveld are referred to collectively as the "2022 Acquisitions."

The aggregate purchase consideration for the 2022 Acquisitions was approximately \$35 million. We funded the 2022 Acquisitions using cash and commercial paper borrowings. In addition to the cash paid at closing, the sellers in one of these acquisitions are eligible for earn-out payments of up to \$30 million subject to the acquired company achieving certain post-acquisition performance targets. As of the acquisition date, we have included an estimate of the fair value of these earn-out payments in the aggregate purchase consideration.

The 2022 Acquisitions were not material, individually or in the aggregate, to the unaudited Condensed Consolidated Financial Statements.

Refer to Note 2, "Acquisitions," to the unaudited Condensed Consolidated Financial Statements for more information.

### Cost Reduction Actions

#### 2019/2020 Actions

During the three months ended April 2, 2022, we recorded \$0.9 million in restructuring charges related to our 2019/2020 actions. These charges consisted of severance and related costs for the reduction of approximately 20 positions at numerous locations across our company. These actions, which were primarily taken in our RBIS reportable segment, largely related to global headcount and footprint reductions. Accruals for severance and related costs, as well as lease cancellation costs, were not material as of April 2, 2022.

Restructuring charges were included in "Other expense (income), net" in the unaudited Condensed Consolidated Statements of Income. Refer to Note 5, "Cost Reduction Actions," to the unaudited Condensed Consolidated Financial Statements for more information.

**Cash Flow**

(In millions)	Three Months Ended	
	April 2, 2022	April 3, 2021
Net cash provided by operating activities	\$ 126.2	\$ 209.3
Purchases of property, plant and equipment	(49.7)	(25.2)
Purchases of software and other deferred charges	(5.6)	(2.3)
Proceeds from sales of property, plant and equipment	.3	.7
Proceeds from insurance and sales (purchases) of investments, net	1.8	(.5)
Payments for certain acquisition-related transaction costs	.3	—
<b>Free cash flow</b>	<b>\$ 73.3</b>	<b>\$ 182.0</b>

During the first three months of 2022, net cash provided by operating activities decreased compared to the same period last year primarily due to changes in operational working capital, higher incentive compensation payments and timing of payroll payments. During the first three months of 2022, free cash flow decreased compared to the same period last year primarily due to a decrease in net cash provided by operating activities and an increase in purchases of property, plant and equipment.

**Outlook**

Certain factors that we believe may contribute to our 2022 results are described below.

- We expect net sales to increase by approximately 12% to 14%, including a decrease of approximately 3% from the effect of foreign currency translation and an increase of approximately 3% from the effect of acquisitions.
- Based on recent exchange rates, we expect foreign currency translation to decrease our operating income by approximately \$40 million.
- We expect our full year effective tax rate to be in the mid-twenty percent range.
- We expect fixed and IT capital spend of up to \$350 million.

**ANALYSIS OF RESULTS OF OPERATIONS FOR THE FIRST QUARTER**
**Income Before Taxes**

Gross profit margin	27.3 %	29.1 %

**Gross Profit Margin**

Gross profit margin for the first quarter of 2022 decreased from the same period last year primarily due to the net unfavorable impact of higher selling prices, higher raw material costs and higher freight costs, as well as higher employee-related costs, partially offset by higher volume/mix.

**Marketing, General and Administrative Expense**

Marketing, general and administrative expense increased in the first quarter of 2022 compared to the same period last year primarily due to the impact of acquisitions and growth investments.

Per share amounts:		
Net income per common share	\$ 2.41	\$ 2.52
Net income per common share, assuming dilution	2.39	2.50
Effective tax rate	26.5 %	21.6 %

*Provision for Income Taxes*

Our effective tax rate for the three months ended April 2, 2022 was 26.5% compared to 21.6% in the same period last year. The lower rate in the prior-year period reflected a discrete return-to-provision benefit related to an election made on our amended 2018 U.S. federal tax return. Refer to Note 7, “Taxes Based on Income,” to the unaudited Condensed Consolidated Financial Statements for more information.

Our effective tax rate can vary from period to period due to the recognition of discrete events, such as changes in tax reserves, settlements of income tax audits, changes in tax laws and regulations, return-to-provision adjustments and tax impacts related to stock-based payments, as well as recurring factors, such as changes in the mix of earnings in countries with differing statutory tax rates and the execution of tax planning strategies.

In the first quarter of 2022, net sales increased on an organic basis compared to the same period in the prior year due to pricing actions, partially offset by a modest decline in volume/mix. On an organic basis, net sales increased by a low-to-mid-single digit rate in emerging markets and high teens rates in North America and Western Europe.

**Operating Income**

Operating income decreased in the first quarter of 2022 compared to the same period last year primarily due to unfavorable currency translation and the net unfavorable impact of higher selling prices, higher raw material costs and higher freight costs.

Organic sales change <sup>(1)</sup>	20 %

<sup>(1)</sup>Totals may not sum due to rounding

In the first quarter of 2022, on an organic basis, sales increased by over 20% in high value categories and a mid-teens rate in the base business.

Company-wide, on an organic basis, sales of Intelligent Labels solutions increased over 20%.

**Operating Income**

Operating income increased in the first quarter of 2022 compared to the same period last year primarily due to higher organic volume and the impact of acquisitions, partially offset by higher amortization of other intangibles resulting from business acquisitions, growth investments and higher employee-related costs.

**Industrial and Healthcare Materials**

(In millions)	<b>Three Months Ended</b>

<sup>(1)</sup>Totals may not sum due to rounding

In the first quarter of 2022, net sales increased on an organic basis compared to the same period in the prior year by a low-double digit rate in healthcare categories, partially offset by a low-single digit rate decrease in industrial categories.

**Operating Income**

Operating income decreased in the first quarter of 2022 compared to the same period last year primarily due to lower volume/mix.

Net cash used in investing activities	\$ (86.6)	\$ (51.2)

**Purchases of Property, Plant and Equipment**

During the first three months of 2022, we primarily invested in buildings and equipment to support growth in certain countries in Europe, the U.S. and certain countries in Latin America for our Labels and Graphic Materials (“LGM”) reportable segment, in the U.S. for our IHM reportable segment and in the U.S. and certain countries in Asia for our RBIS reportable segment. During the first three months of 2021, we primarily invested in equipment to support growth in the U.S. for our LGM and IHM reportable segments and in certain countries in Asia for our RBIS reportable segment.

**Purchases of Software and Other Deferred Charges**

During the first three months of 2022 and 2021, we primarily invested in information technology upgrades in the U.S.

**Proceeds from Sale of Product Line**

During the first three months of 2021, proceeds from the sale of a product line were in our LGM reportable segment.

**Payments for Acquisitions, Net of Cash Acquired, and Investments in Businesses**

During the first three months of 2022, we paid consideration, net of cash acquired, of approximately \$30 million for the 2022 Acquisitions. We funded the 2022 Acquisitions using cash and commercial paper borrowings. During the first three months of 2021, we paid consideration, net of cash acquired, of approximately \$30 million for acquisitions, which we funded using cash and commercial paper borrowings. We also made certain venture investments in both 2022 and 2021.

**Financing Activities**

(In millions)	Three months ended	
	April 2, 2022	April 3, 2021

Net (tax withholding) proceeds related to stock-based compensation	(24.9)	(25.3)
Net cash used in financing activities	\$ (55.1)	\$ (80.2)

***Borrowings and Repayment of Debt***

During the first three months of 2022 and 2021, our commercial paper borrowings were used to fund acquisitions, dividend payments, share repurchases, capital expenditures and other general corporate purposes.

Refer to Note 2, “Acquisitions,” and Note 4, “Debt,” to the unaudited Condensed Consolidated Financial Statements for more information.

***Dividends Paid***

We paid dividends of \$.68 per share in the first three months of 2022 compared to \$.62 per share in the same period last year. In April 2022, subsequent to the end of our first quarter 2022, we increased our quarterly dividend rate to \$.75 per share, representing an increase of approximately 10% from our previous quarterly dividend rate of \$.68 per share.

***Share Repurchases***

During the first three months of 2022 and 2021, we repurchased approximately 0.8 million and 0.3 million shares of our common stock, respectively.

In April 2022, subsequent to the end of the first quarter of 2022, our Board authorized the repurchase of shares of our common stock with a fair market value of up to \$750 million, excluding any fees, commissions or other expenses related to such purchases and in addition to the amount outstanding under our previous Board authorization. Board authorizations remain in effect until shares in the amount authorized thereunder have been repurchased.

***Net (Tax Withholding) Proceeds Related to Stock-Based Compensation***

During the first three months of 2022, tax withholding for stock-based compensation decreased compared to the same period last year primarily as a result of equity awards vesting at lower share prices.

**Analysis of Selected Balance Sheet Accounts**
***Long-lived Assets***

In the three months ended April 2, 2022, goodwill increased by approximately \$9 million to \$1.89 billion, which reflected the preliminary valuation of goodwill associated with the 2022 Acquisitions, partially offset by the impact of foreign currency translation.

In the three months ended April 2, 2022, other intangibles resulting from business acquisitions, net, decreased by approximately \$1 million to \$910.8 million, which reflected current year amortization expense and the impact of foreign currency translation, partially offset by the preliminary valuation of intangible assets associated with the 2022 Acquisitions.

Refer to Note 3, “Goodwill and Other Intangibles Resulting from Business Acquisitions,” to the unaudited Condensed Consolidated Financial Statements for more information.

***Shareholders’ Equity Accounts***

As of April 2, 2022, the balance of our shareholders’ equity was \$1.93 billion. Refer to Note 9, “Supplemental Equity and Comprehensive Income Information,” to the unaudited Condensed Consolidated Financial Statements for more information.

## Impact of Foreign Currency Translation

(In millions)	<b>Three Months Ended</b>	
	<b>April 2, 2022</b>	
Change in net sales	\$	(60)

International operations generated approximately 72% of our net sales during the three months ended April 2, 2022. Our future results are subject to changes in political and economic conditions in the regions in which we operate and the impact of fluctuations in foreign currency exchange and interest rates.

The unfavorable impact of foreign currency translation on net sales in the first three months of 2022 compared to the same period last year was primarily related to euro-denominated sales.

## Effect of Foreign Currency Transactions

The impact on net income from transactions denominated in foreign currencies is largely mitigated because the costs of our products are generally denominated in the same currencies in which they are sold. In addition, to reduce our income and cash flow exposure to transactions in foreign currencies, we enter into foreign exchange forward, option and swap contracts where available and appropriate. Refer to Note 6, "Financial Instruments," to the unaudited Condensed Consolidated Financial Statements for more information.

## Analysis of Selected Financial Ratios

We utilize the financial ratios discussed below to assess our financial condition and operating performance. We believe this information assists our investors in understanding the drivers impacting our cash flow other than net income and capital expenditures.

### Operational Working Capital Ratio

Operational working capital, as a percentage of annualized current-quarter net sales, is reconciled to working capital below. Our objective is to minimize our investment in operational working capital, as a percentage of annualized current-quarter net sales, to maximize cash flow and return on investment. Operational working capital, as a percentage of annualized current-quarter net sales, in the first quarter of 2022 was higher compared to the first quarter of 2021.

(In millions, except percentages)	<b>April 2, 2022</b>		<b>April 3, 2021</b>	
(A) Working capital	\$	171.1	\$	573.9
Reconciling items:				
Cash and cash equivalents		(147.1)		(328.0)
Other current assets		(234.9)		(216.3)
Short-term borrowings and current portion of long-term debt and finance leases		494.9		116.9
Accrued payroll and employee benefits and other current liabilities		855.8		763.6
(B) Operational working capital	\$	1,139.8	\$	910.1
(C) First-quarter net sales, annualized	\$	9,397.2	\$	8,205.2
Operational working capital, as a percentage of annualized current-quarter net sales: (B) ÷ (C)		12.1 %		11.1 %

### Accounts Receivable Ratio

The average number of days sales outstanding was 60 days in the first quarter of 2022 compared to 58 days in the first quarter of 2021, calculated using the accounts receivable balance at quarter-end divided by the average daily sales in the first quarter of 2022 and 2021, respectively. The increase in average number of days sales outstanding was primarily due to the impact of acquisitions and foreign currency translation.

### Inventory Ratio

Average inventory turnover was 7.1 in the first quarter of 2022 compared to 7.4 in the first quarter of 2021, calculated using the annualized first-quarter cost of products sold in 2022 and 2021, respectively, and divided by the inventory balance at quarter-end. The decrease in average inventory turnover primarily reflected inventory build to manage supply chain disruptions and anticipated increased demand.

### Accounts Payable Ratio

The average number of days payable outstanding was 73 days in the first quarter of 2022 compared to 74 days in the first quarter of 2021, calculated using the accounts payable balance at quarter-end divided by the annualized first-quarter cost of products sold, in 2022 and 2021, respectively. The decrease in average number of days payable outstanding primarily reflected the impact of acquisitions,

partially offset by the impact of foreign currency translation and higher accounts payable balances due to our inventory build to manage supply chain disruptions and anticipated increased demand.

### Capital Resources

Capital resources include cash flows from operations, cash and cash equivalents and debt financing, including access to commercial paper borrowings supported by our Revolver. We use these resources to fund our operational needs.

As of April 2, 2022, we had cash and cash equivalents of \$147.1 million held in accounts at third-party financial institutions. Our cash balances are held in numerous locations throughout the world. As of April 2, 2022, the majority of our cash and cash equivalents was held by our foreign subsidiaries, primarily in Asia Pacific.

To meet our U.S. cash requirements, we have several cost-effective liquidity options available. These options include borrowing funds at reasonable rates, including borrowings from foreign subsidiaries, and repatriating foreign earnings and profits. However, if we were to repatriate foreign earnings and profits, a portion would be subject to cash payments of withholding taxes imposed by foreign tax authorities. Additional U.S. taxes may also result from the impact of foreign currency fluctuations related to these earnings and profits.

The Revolver, which matures in February 2025, is used as a back-up facility for our commercial paper borrowings and can be used for other corporate purposes. No balance was outstanding under the Revolver as of April 2, 2022 or January 1, 2022.

#### *Capital from Debt*

The carrying value of our total debt increased by approximately \$164 million in the first three months of 2022 to \$3.27 billion, primarily reflecting a net increase in commercial paper borrowings.

Credit ratings are a significant factor in our ability to raise short- and long-term financing. The credit ratings assigned to us also impact the interest rates we pay and our access to commercial paper, credit facilities and other borrowings. A downgrade of our short-term credit ratings could impact our ability to access commercial paper markets. If our access to commercial paper markets were to become limited, we believe that the Revolver and our other credit facilities would be available to meet our short-term funding requirements. When determining a credit rating, we believe that rating agencies primarily consider our competitive position, business outlook, consistency of cash flows, debt level and liquidity, geographic dispersion and management team. We remain committed to maintaining an investment grade rating.

### Off-Balance Sheet Arrangements, Contractual Obligations, and Other Matters

Refer to Note 11, "Commitments and Contingencies," to the unaudited Condensed Consolidated Financial Statements for this information. Except as indicated therein, we have no material off-balance sheet arrangements as described in Item 303(b) of Regulation S-K.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to the information provided in Part II, Item 7A of our Annual Report on Form 10-K for the fiscal year ended January 1, 2022 that have not been disclosed in our periodic filings with the SEC.

### ITEM 4. CONTROLS AND PROCEDURES

#### Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(f)) that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding the required disclosure.

In designing and evaluating the disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Our disclosure controls system is based upon a global chain of financial and general business reporting lines that converge in our headquarters in Mentor, Ohio. As required by SEC Rule 13a-15(b), we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the quarter covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of such time to provide reasonable assurance that information was recorded, processed, summarized and reported within the time periods

specified in the SEC's rules and forms, and that such information was accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding the required disclosure.

**Changes in Internal Control Over Financial Reporting**

There were no changes in our internal control over financial reporting during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

Refer to “Legal Proceedings” in Note 11, “Commitments and Contingencies,” to the unaudited Condensed Consolidated Financial Statements in Part 1, Item 1 for this information.

### ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors included in Part I, Item 1A, of our Annual Report on Form 10-K for the fiscal year ended January 1, 2022 that have not been disclosed in our periodic filings with the SEC, except as set forth below.

*The demand for our products is impacted by the effects of, and changes in, worldwide economic, social, political and market conditions, which could have a material adverse effect on our business.*

We have operations in over 50 countries and our domestic and international operations are strongly influenced by matters beyond our control, including changes in political, social, economic and labor conditions, tax laws (including U.S. taxes on foreign earnings), and international trade regulations (including tariffs), as well as the impact of these changes on the underlying demand for our products. In 2021, approximately 75% of our net sales were from international operations.

Macroeconomic developments such as impacts from COVID-19, inflation, raw material, freight and labor availability, slower growth in the geographic regions in which we operate and uncertainty in the global credit or financial markets leading to a loss of consumer confidence could result in a material adverse effect on our business as a result of, among other things, reduced consumer spending, declines in asset valuations, diminished liquidity and credit availability, volatility in securities prices, credit rating downgrades and fluctuations in foreign currency exchange rates.

While we saw the ease of trade tensions between the U.S. and some of its trading partners such as the EU and Japan, we continue to face uncertainty from trade relations between the U.S. and China. Over the past few years, the U.S. government has imposed additional tariffs on products imported into the U.S. from China. This has resulted in reciprocal tariffs on goods imported from the U.S. into China. The impacts on our operations to date have not been significant. There remains risk that our business could be significantly impacted if additional tariffs or other restrictions are imposed on products. Any of these actions or further developments in international trade relations could have a material adverse effect on our business.

In addition, business and operational disruptions or delays caused by political, social or economic instability and unrest – such as civil, political and economic disturbances in places such as the U.S., Russia, Ukraine, Afghanistan, Syria, Iraq, Iran, Turkey, North Korea, and Hong Kong and the related impact on global stability, terrorist attacks and the potential for other hostilities, public health crises or natural disasters in various parts of the world – could contribute to a climate of economic and political uncertainty that in turn could have a material adverse effect on our business. In February 2022, Russia invaded Ukraine resulting in the U.S., Canada, the European Union and other countries imposing economic sanctions on Russia. Additional potential sanctions and penalties have been proposed or threatened. Russian military actions and the resulting sanctions could adversely affect the global economy and financial markets. Any Russian response could also disrupt commercial and financial transactions. We have ceased shipment of all products for the Russian market. Our sales for the Russian market were approximately 1% of our net sales in 2021. Further, the continuing conflict in Ukraine has spilled over into neighboring countries due to the displacement of a large number of refugees, which could adversely impact the global supply chain and disrupt our operations or negatively impact the demand for our products in our primary end markets. Any such disruption could have a material adverse effect to our financial results.

We are not able to predict the duration and severity of adverse economic, social, political or market conditions in the U.S. or other countries.

### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

- (a) Not Applicable
- (b) Not Applicable
- (c) Repurchases of Equity Securities by Issuer

Repurchases by us or our “affiliated purchasers” (as defined in Rule 10b-18(a)(3) of the Exchange Act) of registered equity securities in the first quarter of 2022 are shown in the table below. Repurchased shares may be reissued under our long-term incentive plan or used for other corporate purposes.

<sup>(3)</sup>In April 2019, our Board authorized the repurchase of shares of our common stock with a fair market value of up to \$650 million, excluding any fees, commissions or other expenses related to such purchases. This Board authorization will remain in effect until shares in the amount authorized thereunder have been repurchased.

<sup>(4)</sup>Dollars in millions.

In April 2022, subsequent to the end of the first quarter of 2022, our Board authorized the repurchase of shares of our common stock with a fair market value of up to \$750 million, excluding any fees, commissions or other expenses related to such purchases, in addition to the amount outstanding under our previous Board authorization pursuant to which purchases were made in the periods shown in the table above. Board authorizations remain in effect until shares in the amount authorized thereunder have been repurchased

Dear Deena:

I am very pleased to offer you the position of Chief HR Officer reporting directly to me. This is an Executive - Level 3 position and will be effective September 1, 2020.

Specific details of our job offer are as follows:

**Base Salary:** Your annualized rate of pay will continue to be **\$400,000** paid semi-monthly. Your next salary review will be April 1, 2021. Subsequent salary reviews will be conducted on April 1<sup>st</sup> of each year, or on another date designated by the Company for a given year.

**Bonus:** You will continue to be eligible to be considered under Avery Dennison's annual incentive plan ("AIP") to participate at a **50%** of base salary opportunity level effective April 1, 2020, subject to applicable withholdings. The Annual Incentive Plan (AIP), including eligibility criteria, may change at any time, with or without notice, in accordance with applicable law or, if permissible under the law, at the discretion of the Company.

**Long-Term Incentive (LTI):** Under the Company's executive incentive compensation program you will be eligible to be considered for an annualized long-term incentive award with a value opportunity equivalent to approximately **120%** of your base salary. As a Level 3 Executive, you will be required to comply with the Company's Stock Ownership Guidelines at a 2X salary multiple. This long-term incentive award can be delivered to you in equity and/or cash. The long term incentive program, including eligibility criteria, may be amended, suspended or terminated at any time, with or without notice, in accordance with applicable law and the applicable plan terms.

In this role, you will be considered a Section 16 officer under U.S. securities laws. As a result, you will have obligations to report any transactions you make with respect to Company stock within two business days of the transaction. In addition to these reporting requirements, you can be subject to civil liability for certain "short-swing" transactions. You should discuss these matters with the Law Department.

All other terms and conditions will remain the same.

Congratulations on your new role. If you have any questions, please let me know.

Please sign and date this offer letter below and return it to LeeAnn Prussak in Corporate Human Resources.

Dear Ignacio:

I am very pleased to offer you the position of Chief Legal Officer, reporting directly to me. This is an Executive - Level 3 position and will be effective September 1, 2020.

Specific details of our job offer are as follows:

**Base Salary:** Your annualized rate of pay will be **\$415,000** paid semi-monthly. Your next salary review will be April 1, 2021. Subsequent salary reviews will be conducted on April 1<sup>st</sup> of each year, or on another date designated by the Company for a given year.

**Bonus:** You will continue to be eligible to be considered under Avery Dennison's annual incentive plan ("AIP") to participate at a **50%** of base salary opportunity level effective September 1, 2020, subject to applicable withholdings. The Annual Incentive Plan (AIP), including eligibility criteria, may change at any time, with or without notice, in accordance with applicable law or, if permissible under the law, at the discretion of the Company.

**Long-Term Incentive (LTI):** Under the Company's executive incentive compensation program you will be eligible to be considered for an annualized long-term incentive award with a value opportunity equivalent to approximately **120%** of your base salary effective January 1, 2021. As a Level 3 Executive, you will be required to comply with the Company's Stock Ownership Guidelines at a 2X salary multiple. This long-term incentive award can be delivered to you in equity and/or cash. The long term incentive program, including eligibility criteria, may be amended, suspended or terminated at any time, with or without notice, in accordance with applicable law and the applicable plan terms.

- **Special Award:** You will be given a special one-time grant with a value of \$300,000, which will be converted to RSU's based on the fair market value (FMV) as of the day of the grant. This award will be granted on September 1, 2020 and will vest over a three-year period at a rate of one-third per year on the anniversary of the grant date, subject to your continued employment with the Company through each such anniversary.

**Executive Benefits:** You will receive an annual Executive Benefit Allowance in the amount **\$50,000**, which will be paid in semi-monthly installments with your normal payroll run. If your start date is in the middle of a pay cycle, you will receive the first allowance at the beginning of your next pay cycle.

You will continue to be entitled to the benefits generally available to Company employees in accordance with specific plan provisions. You will continue to be entitled to unlimited vacation and will not accrue vacation while eligible for the unlimited use program. You will receive holidays in accordance with the Company's holiday policy as it may be established and changed from time-to-time. Avery Dennison celebrates 12 paid holidays each calendar year and you will receive a schedule of holidays for your work location shortly after you begin.

Please see Level 3 Benefits Summary as a reference.

In this role, you will be considered a Section 16 officer under U.S. securities laws. As a result, you will have obligations to report any transactions you make with respect to Company stock within two business days of the transaction. In addition to these reporting requirements, you can be subject to

civil liability for certain “short-swing” transactions. You should discuss these matters with the Law Department.

All other terms and conditions will remain the same.

Congratulations on your new role. If you have any questions, please let me know.

Dear Deon,

I am very pleased to offer you the position of President and Chief Operating Officer reporting directly to me. This will be effective March 1, 2022.

Specific details of our job offer are as follows:

Your annualized rate of pay will be \$700,000 paid semi-monthly. Your next salary review will be April 1, 2023. Subsequent salary reviews will be conducted on April 1st of each year, or on another date designated by the Company for a given year.

**Bonus:** You will continue to be eligible to be considered under Avery Dennison's annual incentive plan ("AIP") and will participate at a 75% of base salary opportunity level, with a linkage code of CRP01 - Corporate Worldwide, effective January 1, 2022, subject to applicable withholdings. The Annual Incentive Plan (AIP), including eligibility criteria, may change at any time, with or without notice, in accordance with applicable law or, if permissible under the law, at the discretion of the Company.

**Long-Term Incentive (LTI):** Under the Company's executive incentive compensation program, you will continue to be eligible to be considered for an annualized long-term incentive award with a value opportunity equivalent to approximately 300% of your base salary effective with the 2022 grant. This long-term incentive award can be delivered to you in equity and/or cash. The long term incentive program, including eligibility criteria, may be amended, suspended or terminated at any time, with or without notice, in accordance with applicable law and the applicable plan terms.

You will be awarded a one-time Restricted Stock Units (RSU) grant with a value of \$1,500,000. This award will be granted on March 1, 2022. The award will be converted to Restricted Stock Units based on the fair market value (FMV) as of the day of the grant and will vest 100% on the third anniversary of the grant, subject to your continued employment with the Company.

You will continue to receive an annual executive benefit allowance in the amount \$65,000 which will be paid in semi-monthly installments with your normal payroll run.

Congratulations on your new role. If you have any questions, please let me know.

Please sign and date this offer letter below and return it to LeeAnn Prussak in Corporate Human Resources.

Sincerely,

/s/ Mitch Butier

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER  
PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

**CERTIFICATION**

I, Mitchell R. Butier, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Avery Dennison Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
